

PRICING

Please note that all areas are a separate treatment. These areas include:

- Abdomen/flanks
- Buttocks
- Back
- Upper Arms
- Front Thighs
- Back Thighs
- Face

Vacuum BBL – 60 Min.

Non-surgical Butt Lift that promotes a fuller, more lifted, and shapely buttock. Vacuum therapy is used to restore and mobilize fat of the gluteal muscles by stimulating natural lifting and tightening of the skin. The buttock is treated to receive a rounder, more toned appearance without surgery.

Vacuum BBL w/Cellulite Treatment – 60 Min.

With the use of the vacuum therapy machine, the vacuum buttock cups, gradually lifts and plumps the buttocks. Giving you a fuller, more rounded, and lifted butt. Cellulite treatment with the use of the Ultrasonic Cavitation and Vacuum Therapy. Lose unwanted fat, inches, and cellulite.

Lipo Ultrasonic Cavitation Treatment - 30 Min. P/Area

Using ultrasound to accurately target fat, transmitting powerful soundwaves. This will cause the fat to explode into liquid content then leaves the body through the normal channels of the body's natural metabolism.

Body Radio Frequency Treatment – 30 Mins.

Radio frequency assists the metabolism of large fat granules ruptured by cavitation treatment forcing the excretion of triglycerides and skin tightening. Radio frequencies transfer energy into the deeper dermal layers causing the skin to thicken, decrease stretch marks, and leaves the skin firmer and tighter.

Ultrasonic Cavitation & RF Combo

Laser Lipo Panels – 60 mins

Vacuum Contouring Therapy – 30 Min. P/Area

Vacuum Contouring is used to improve blood circulation, reduce cellulites, smooth the underlying fat layers, and increase elasticity. Vacuum Therapy also helps mold the fat and contours your body.

Cellulite Treatment – 60 Min.

This is used to improve blood circulation, reduce cellulite, smooth the underlying fat layers and increase elasticity.

Sauna Blanket Body Wrap – 30 Min.

There are numerous benefits to the infrared sauna blanket, including, weight loss, muscle tension relief, detoxification, increased metabolism, and a stronger immune system. The controlled, timed heat will cause the body to sweat and release toxins. The results are the loss of excess body fat.

Radio Frequency Facial – 30 Min.

Radio Frequency is all about stimulating your own collagen generation. RF facials soften fine lines, firms skin, reduces pores, as well as lifts cheeks and tightens saggy skin. RF Treatments give your skin an all-around smoother and more radiant look.

Radio Frequency Face and Neck Treatment – 60 Min.

Radio Frequency radio treatment is technology for non-surgical tightening for the early signs of loose or sagging skin.
